

ABOUT

#AdultAmmyStrong was founded in September 2015 based off the trials, tribulations and successes I had getting back in the saddle after a decade-long absence from the sport.

We must all overcome challenges that being an amateur equestrian presents, but we need to always remember why we ride. Yes, the ribbons are great, but we can't let these wins and results dictate our happiness. We've chosen to be a part of this unique and amazing sport. We devote time and money to these fantastic creatures because it's a fun and exciting adventure and we need to make sure to remind ourselves of that when times get tough.

For working adult amateurs, riding should be a way to escape for a little while, and a way to truly let go of some of life's stressors and enjoy time with our equine partners.
